Pulverizer series

YH pulverizer

PN3-MF 400

Pulverizer series

YH pulverizer

PN3-MF 500

Model	PN3-MF 400
Capacity	PE: 80kg/h
Main engine	The spindle is equipped with NSK bearings imported from Japan, which are protected for long-term operation through dual cooling of air and water cooling
Main motor	22kw
Vibrating screen	Divided into two layers, vibration motor 0.75kw
Induced draft fan	4kw
Discharge fan	Volume 5L, motor power 1.1kw
Vibration feeder	Electromagnetic vibration, variable frequency speed regulation
Electric control box	DELIXI
Grinding disc	SKD-11 material imported from Japan. The diameter of the grinding disc is 410mm.
cyclone separator	With a diameter of 500mm, separate materials and dust
Dust collector	The square dust collector collects and consumes the strong wind and some impurities discharged by the fan through rotation, avoiding resonance and reducing noise

Model	PN3-MF 500
Capacity	PE:180-200kg/h
Main engine	The spindle is equipped with NSK bearings imported from Japan, which are protected for long-term operation through dual cooling of air and water cooling
Main motor	37kw
Vibrating screen	Divided into two layers, vibration motor 0.75kw
Induced draft fan	4kw
Discharge fan	Volume 5L, motor power 1.1kw
Vibration feeder	Electromagnetic vibration, variable frequency speed regulation
Electric control box	DELIXI
Grinding disc	SKD-11 material imported from Japan. The diameter of the grinding disc is 510mm.
cyclone separator	With a diameter of 500mm, separate materials and dust
Dust collector	The square dust collector collects and consumes the strong wind and some impurities discharged by the fan through rotation, avoiding resonance and reducing noise

Pulverizer series

YH pulverizer

PN3-MF 600

Model	PN3-MF 600
Capacity	PE:280-300kg/h
Main engine	The spindle is equipped with NSK bearings imported from Japan, which are protected for long-term operation through dual cooling of air and water cooling
Main motor	55kw
Vibrating screen	Divided into two layers, vibration motor 0.75kw, ϕ 1100mm
Induced draft fan	5.5kw
Discharge fan	Volume 5L, motor power 1.1kw
Vibration feeder	Electromagnetic vibration, variable frequency speed regulation
Electric control box	DELIXI
Grinding disc	SKD-11 material imported from Japan. The diameter of the grinding disc is 610mm.
cyclone separator	With a diameter of 500mm, separate materials and dust
Dust collector	The square dust collector collects and consumes the strong wind and some impurities discharged by the fan through rotation, avoiding resonance and reducing noise

Pulverizer series

YH pulverizer

PN3-MF 800

Model	PN3-MF 800
Capacity	PE:400-500kg/h
Main engine	The spindle is equipped with NSK bearings imported from Japan, which are protected for long-term operation through dual cooling of air and water cooling
Main motor	75kw
Vibrating screen	Divided into two layers, vibration motor 1.5kw, ϕ 1200mm
Induced draft fan	7.5kw
Discharge fan	Volume 7L, motor power 1.1kw
Vibration feeder	Spiral feeding, variable frequency speed regulation (spiral feeding motor 0.75kw). with an automatic suction machine.
Electric control box	DELIXI
Grinding disc	SKD-11 material imported from Japan. The diameter of the grinding disc is 800mm.
cyclone separator	With a diameter of 500mm, separate materials and dust
Dust collector	The square dust collector collects and consumes the strong wind and some impurities discharged by the fan through rotation, avoiding resonance and reducing noise

Pulverizer series

YH pulverizer

PN3-WH 500

Model	PN3-WH 500
Capacity	PVC:180kg/h
Main engine	The spindle is equipped with NSK bearings imported from Japan, which are protected for long-term operation through dual cooling of air and water cooling, internal diameter Φ 520mm
Main motor	37kw
Vibrating screen	Divided into two layers, vibration motor 0.75kw
Induced draft fan	4kw
Discharge fan	Volume 5L, motor power 1.1kw
Vibration feeder	Electromagnetic vibration, variable frequency speed regulation
Electric control box	DELIXI
Cutter disc	fixed knives 24 pcs, stationary knives 12.5 pcs, made of carbon composite material
cyclone separator	With a diameter of 500mm, separate materials and dust
Dust collector	The square dust collector collects and consumes the strong wind and some impurities discharged by the fan through rotation, avoiding resonance and reducing noise

Pulverizer series

YH pulverizer

PN3-WH 600

Model	PN3-WH 600
Capacity	PVC:300kg/h
Main engine	The spindle is equipped with NSK bearings imported from Japan, which are protected for long-term operation through dual cooling of air and water cooling
Main motor	55kw
Vibrating screen	Divided into two layers, vibration motor 0.75kw, Φ 1000mm
Induced draft fan	5.5kw
Discharge fan	Volume 5L, motor power 1.1kw
Vibration feeder	Electromagnetic vibration, variable frequency speed regulation
Electric control box	DELIXI
Cutter disc	fixed knives 24 pcs, stationary knives 14 pcs, made of carbon composite material
cyclone separator	With a diameter of 500mm, separate materials and dust
Dust collector	The square dust collector collects and consumes the strong wind and some impurities discharged by the fan through rotation, avoiding resonance and reducing noise

Pulverizer series

YH pulverizer

PN3-WH 800

Model	PN3-WH 800
Capacity	PVC:500kg/h
Main engine	The spindle is equipped with NSK bearings imported from Japan, which are protected for long-term operation through dual cooling of air and water cooling, internal diameter ϕ 800mm
Main motor	75kw
Vibrating screen	Divided into two layers, vibration motor 1.5kw, ϕ 1200mm
Induced draft fan	7.5kw
Discharge fan	Volume 7L, motor power 1.5kw
Vibration feeder	Electromagnetic vibration, variable frequency speed regulation
Electric control box	DELIXI
Cutter disc	fixed knives 36 pcs, stationary knives 19 pcs, made of carbon composite material
cyclone separator	With a diameter of 500mm, separate materials and dust
Dust collector	The square dust collector collects and consumes the strong wind and some impurities discharged by the fan through rotation, avoiding resonance and reducing noise
